

WIND TURBINE RETROFIT

Global leaders in turbine retrofit technology

Increase production, reliability and lifetime of your wind turbine

REPOWERING establishes long-term partnerships with turbine manufacturers, independent power producers and service providers and identifies the most optimal turbine retrofit solutions to upgrade existing turbines according to the stated market criteria. Whether the turbines are in the kW and MW class, we provide a new customized control system solution to secure the optimal energy production. With REPOWERING solutions, the upgraded turbines are provided with the main benefits; extended lifetime, increased energy production and maximum availability. Originally designed to last for 20 years, retrofitted turbines can stay in operation up to 20 years more.

All together these benefits lower the turbine operational costs and secure your investment

REPOWERING works with OEMs, project developers, IPPs (Independent Power Producers) and utilities to make renewable generation technology like wind power affordable, reliable, efficient, and safe.

REPOWERING

REPOWERING SOLUTIONS is a British Company with focus of activity in the energy sector. We work in the worldwide energy market offering global solutions for investments optimisation.

REPOWERING SOLUTIONS has been formed as result of integrating several corporations with great expertise in a wide range of specialised areas on energy. We aim to offer an integrated, complete and specific solution for each project. Our services ranges from engineering, sale and distribution to logistics and transportation. We specially regard the recovery of value for industrial equipment, being of great weight in our projects portfolio.

REPOWERING SOLUTIONS mission statement is the offering of those technical and financial proposals to answer those fundamental questions raised in any new project of energy generation: which is the best technological answer combining the best degree of efficiency and effectiveness with the least investment, the least investor risk with the greatest level of profitability? By asking this ourselves, we focus in acting in the best interests of our clients, putting their interests at the heart of everything we do
